

acatech workshop

”European perspectives on security research and safety aspects”

March 4 and 5, 2010

Fraunhofer Institute for High-Speed Dynamics - Ernst-Mach-Institut in Freiburg (Germany)

Eckerstraße 4, 79104 Freiburg, Germany

Chairman: Prof. Klaus Thoma

Scope of the Workshop

The workshop will comparatively discuss different perceptions of security and safety within Europe and identify possible delineations that are made by the security research communities between the field of security and safety. Content and major focus of national security research programs as well as relevant actors/organizations mainly shaping and organizing the security research programs in the different home countries will be presented by invited experts. They will also present links between the national security research programs and the European security research program of FP7. As a result of this two-day workshop an overview of security research activities in Europe will be generated and links for future research cooperation will be worked out between the participants of the workshop. It is intended to publish the workshop outcomes in one of acatech's publication series.

Agenda

March 4, 2010

10.00 a.m.	Topical network meeting	Members of acatech TN "Sicherheit"
12.00 a.m.	Lunch, Arrival of workshop participants	
1.00 p.m.	Welcome and Introduction	Dieter Spath , Vicepresident of acatech Klaus Thoma , Fraunhofer Institute for High-Speed Dynamics - Ernst-Mach-Institut in Freiburg
1.15 p.m.	Security research in the European Union Discussion	Tjien-Khoen Liem , European Commission
2.15 p.m.	Security research and safety aspects in France and in Norway Discussion	Christian Bréant , European Defense Agency Håvard Fridheim , Norwegian Defence Research (FFI)
3.15 p.m.	Coffee Break	

3.45 p.m.	Security research and safety aspects in Great Britain and in the Netherlands	Tobias Feakin , Royal United Services Institute, UK Pieter Hartel , University of Twente, Dutch National ICT Innovation Platform
	Discussion and Summary	
5.30 p.m.	Ending	
6.30 p.m.	Guided tour	
7.30 p.m.	Invited Dinner Schloßbergrestaurant Dattler Am Schlossberg 1, 79104 Freiburg	
 March 5, 2010		
9.30 a.m.	Security research and safety aspects in Germany and Austria	Klaus Thoma , Fraunhofer Institute for High-Speed Dynamics - Ernst-Mach-Institut in Freiburg Alfred Vogel , Austrian Academy of Science, <i>(to be confirmed)</i>
	Discussion	
10.30 a.m.	Coffee Break	
11.00 a.m.	Security research and safety aspects in Russia and Slovakia	Oleg Gogunov , Russian Academy of Science <i>(to be confirmed)</i> Juraj Sinay , Technical University of Košice <i>(to be confirmed)</i>
	Discussion and Summary	
12.30 a.m.	Lunch	
1.30 p.m.	Ending	
2.00 p.m.	Excursion to EMI Labs, security demonstration	Workshop participants are offered to get an insight view of Fraunhofer EMI's experimental facility in Efringen-Kirchen/Holzen, where various installations for the development of protective measures for critical infrastructure will be presented.
6.00 p.m.	Ending	

Workshop Moderation: Michael Beyerunge, ZDF Berlin, Correspondent for Foreign and Security Policy, Managing Editor of „Berlin Direkt“
