

Francisco SUÁREZ ORTIZ is the Vice-Chair of the European Nuclear Society – Young Generation Network (ENS-YGN) and Project Manager at Tecnatom. He holds an industrial engineering degree from the University of Comillas in Madrid and an MSc in nuclear engineering from Imperial College London.

His work experience started in audit and consulting within the energy sector at Deloitte-Spain. Within the nuclear sector, at Tecnatom since 2017, he has worked in nuclear power plant operations training, radiological impact assessments, lecturer for the International Atomic Energy Agency in several international Technical Cooperation courses and was seconded to the European Nuclear Education Network (ENEN) in Brussels for two years. He has also actively collaborated in *Jóvenes Nucleares* (a Commission of the Spanish Nuclear Society) for 5 years, where he served as vice-president and president as well as chair of the European Nuclear Young Generation Forum (ENYGF) in its 2021 edition.

He also cooperates since 2022 as Associate Collaborating Professor of engineering thermodynamics at the ICAI School of Engineering (University of Comillas, Madrid) during the spring terms.
