

**Stefan Freunberger** obtained his PhD in Chemistry from ETH Zürich and was post doc at the University of St Andrews, working on many aspects of Li-O<sub>2</sub> chemistry. He has been PI at TU Graz and Assistant Professor at IST Austria. Since 2025 Stefan Freunberger is Professor at IST Austria, with research interests embracing energy-storage materials, including alkaline-ion and metal-O<sub>2</sub>, metal-S and organic-based batteries, electrolytes, and in situ techniques. His research has been recognized by the Srinivasan Young Investigator Award of The Electrochemical Society, the invited visiting professorship La Chaire Total de la Fondation Balard, elected membership of the Austrian Academy of Sciences, the Tajima Prize of the International Society of Electrochemistry, the Krainer Memorial Award 2020 , and an ERC Starting Grant and Proof-of-Concept grant. He is member of the board of directors of the Austrian Science Fund Cluster of Excellence “Materials for Energy Conversion and Storage”.
